Robinson High School
Volume VI
Waco, Texas
1969

Foreword . . .

In the autumn of our lives, we leave our gay life of fun and games and start to school. We meet new people and renew old friendships.

In the winter of our lives, we become absorbed in studying for mid-term exams and wishing they were over. Every morning we wake up and hope for snow so that we may return to bed.

In the spring of our lives, we become lazy and do anything except study. We watch the flowers bloom, trees blossom, and the grass turn from brown to green.

This year the Board of Education unanimously approved a contract for the construction of a new high school. These dedicated men work long and hard for the good of RHS and the community.

Another hard working group is the RHS P. T. A. With money made from the Halloween Carnival and the sale of cook books, eleven seniors received \$100 scholarships.

FRONT: Mrs. Williard, Mrs. Taylor, Mrs. Gibson, Mrs. Springston. BACK: Mrs. Trimble, Mrs. Chappell, Mrs. Elliston.

LEFT TO RIGHT: Mr. Gus Rogas, Mr. Charlie Nussman, Mr. Claude Wells, Mr. Burch.

To keep a school such as ours in good working order, an enormous amount of help is required. Most of this assistance is given to us by a few dedicated people who in many cases receive very little in return.

In January, a guest speaker was present to talk on morals and manners. During FHA week the members presented a student assembly with guest Nancy Swenson presenting selections, a pizza party for the faculty, and attended church together. The largest number of girls in six years attended Area VIII meeting in Waco. Brenda Threlkeld is the first FHA member to achieve a state degree. The members also attended the State Fair in Dallas in October and Six Flags over Texas in May. Four members attended State FHA meeting in Dallas the first week-end in May.

Only electricity provides flameless cooking! Teresa, Janie, Suzzane, and Sue believe in cooking the modern way ... the clean and cool way ... with flameless electricity. With no flame, there's no smudge and no soot ... pots and pans stay bright ... walls, cabinets and curtains stay fresh. The insulated oven of our electric range lets you maintain exact cooking temperatures. Quick-action surface units make direct contact with utensils so heat goes into foods and not into the air with flameless electricity. The average monthly cost of cooking electrically is from \$1.50 to \$2.25.

that didn't fail!

No other electric utility is better equipped for the job of rural electrification than BRAZOS ELECTRIC POWER COOPERATIVE of Waco. No electric utility employee group knows more about rural electrification than the people at Brazos.

The proof lies in 57 counties of the Brazos River Watershed where BRAZOS ELECTRIC POWER COOPERATIVE

furnishes a dependable supply of low-cost electricity for more than a quarter million rural people.

BRAZOS ELECTRIC POWER COOPERATIVE was organized for the specific purpose of providing electricity for rural electric systems. They did not fail. Brazos was first to provide dependable and adequate service to rural areas. They are still first in service to rural areas.
